

VITAL TEARS™

Eversight is partnering with Vital Tears™ to bring you a convenient, customized option for your patients needing autologous serum eye drops.

Why Vital Tears?

Vital Tears are custom made for each patient per physician's specification and provided through a convenient production, delivery, and billing system.

Produced with a patient's serum in a sterile balanced salt solution, Vital Tears are preservative-free serum eye drops intended for autologous use.

Vital Tears are provided in 3 ml aliquots and may be ordered as a 3 month or 6 month supply. The drops last 1 week in refrigeration and 6 months frozen.

Order online

Conveniently place orders and locate blood collection facilities for your patients online.

Blood collection

Blood can be collected in your office or at an established partner outpatient facility (in select areas).

Serum processing

Serum is diluted to your specifications at a Vital Tears laboratory.

Payment and delivery

Vital Tears coordinates payment with your patient and delivers directly to their home. Patients can expect to receive their Vital Tears as quickly as 48 hours after the blood collection.

Contact your local Eversight representative to begin offering Vital Tears for your dry eye patients.
