through the healing power of donation, transplantation and research. The Eversight network is responsible for recovering, evaluating and providing human eye tissue for transplantation; advancing research into the causes and cures of blinding eye conditions; promoting donation awareness through public and professional education; and providing humanitarian aid to people around the world in need of corneal transplantation. Founded in 1947, Eversight maintains its commitment to excellence as an accredited member of the Eye Bank Association of America (EBAA) and by meeting the highest quality standards set by the U.S. Food and Drug Administration. The nonprofit operates 24/7/365 in Connecticut, Illinois, Michigan, New Jersey, Ohio and South Korea, and collaborates with surgeons, researchers, academic medical centers and eye banks across the United States and abroad. Eversight works with the families of cornea/eye tissue donors to facilitate donation, prepare corneal and other eye tissue donations for safe medical transplant and provide them to partner surgeons around the world to restore sight and independence to patients. Eversight also works with researchers and institutions such as the Centers for Disease Control and Prevention and Cleveland Clinic investigating causes and treatments of blinding eye diseases like diabetic retinopathy and age-related macular degeneration. Eversight provides tissues and collaborates on research to advance vision science and eye banking practices to improve patient outcomes. Through its U.S. and international initiatives, Eversight facilitates sight-restoring care for people around the world regardless of financial or geographical challenges. Tissue services are provided at low or no cost for patients who cannot afford a life-changing transplant surgery and for surgeons conducting medical mission trips worldwide. Charitable donations to Eversight's Gift of Sight Fund provide financial aid to individuals who cannot afford the cost of a cornea transplant. Eversight envisions a world without blindness—a world where all mothers can see their children and all children can grow up to lead independent, productive lives through the gift of sight. To make vision a reality for all, Eversight continuously works to expand its reach, connect more effectively with communities in need and provide the gift of sight to everyone.

In 1985, the Illinois Eye-Bank and Michigan Eye-Bank formed a partnershipone that would earn a reputation for clinical excellence made possible by some of the finest medical directors, staff and board members in the eye banking field. The success of the organization attracted affiliations with other regional eye banks forming one of the largest networks of eye banks in the U.S. In 2015, the network became

known as Eversight, all working together as a unified operation to deliver the highest quality services to surgeons and their patients and to continue to grow our impact around the world.

Eversight provided more than 14,900 tissues for transplantation, research and education globally in 2024. We worked or placed tissue with physicians and researchers in 34 countries and facilitated training for 918 clinicians. Together with all our partners advocates, donor families, transplant recipients, surgeons, Lions, fellow eye banks, healthcare leaders, philanthropic supporters and many others we were able to make vision a reality for more people worldwide.

Form 990, Part III, Line 4b, Program Service Accomplishments: given 34+ presentations at international conferences. The team published six publications in 2024 on: comparing cornea storage medias, perceptions of cornea and eye donation, automated counting and density of donor endothelial cells, protocol for corneal stromal stem cell cultivation, using trypan blue for cell viability after preloading DMEK grafts, and docosahexaenoic acid in diabetic humans and mice. With our many academic partners, Eversight researchers have contributed to over 250 peer-reviewed scientific papers that have garnered 6,300 citations and counting.

Eversight has a longstanding track record of research and development, having awarded more than \$4 million in grants to date that stimulate pioneering clinical and basic science research aiming to develop new ways to restore sight, prevent blindness and ultimately help patients live life to the fullest. Since 1980, our Eye & Vision Research Grant Program has supported researchers at leading academic medical institutions including Harvard, Tufts, Cleveland Clinic, Case Western Reserve, University of Michigan, Northwestern and more. By design, Eversight's grant program provides critical, early-stage funding that is intended to drive foundational research and discovery. Many of these projects have stimulated larger-scale studies and won further financial support from the National Institutes of Health.

In the 2025 funding cycle, Eversight awarded four grants at Loyola University Chicago, University of Houston, University of Illinois Chicago and University of Michigan to advance studies to investigate developing a novel drug evaluation system to stimulate blood vessel growth experimentally using factors that have been linked to the pathophysiology of both wAMD and PDR; enhancing limbal stem cell preservation; understanding the biomechanics of keratoconus by looking at the composition and microstructure of normal human and keratoconus corneal extracellular matrix; and advancing therapies for ocular surface squamous neoplasia.

Each year, recipients are selected by an independent review panel of academic researchers and ophthalmologists. This distinguished panel awards proposals that encourage meaningful scientific inquiry and align with Eversight's mission to restore sight and prevent blindness through the healing power of donation, transplantation and research.

authentic relationships with local leaders to establish culturally informed eye donation frameworks and sustainable eye banking infrastructure. Our experienced team offers vital clinical training and education to eye surgeons and eye bank technicians on the latest clinical methods, improving access to life-changing transplants. Through the incredible generosity of our donors and donor families, Eversight Global Development also provides corneal tissue from the United States for transplant and research globally, providing hope for the future and restoring sight to patients in need.

Our global mission is informed by and aligns with the United Nations Sustainable Development Goals (SDGs), with particular attention given to: #3 Good Health and Well-being, #4 Quality Education, #8 Decent Work and Economic Growth, #10 Reduced Inequalities and #11 Sustainable Cities & Communities. According to the World Health Organization, every dollar spent on improving eye health in underdeveloped areas generates a four-fold return on investment. To address systemic unmet need, Eversight actively works with medical professionals, governments, vision health organizations and other NGOs in regions lacking eye banks and infrastructure, including United Arab Emirates, Pakistan and South Korea. With proven eye banking and technical training practices and having played a part in the elimination of the U.S. cornea transplant waiting list, Eversight is uniquely qualified to work with countries lacking transplant programs to help them establish national networks for eye banking and cornea donation with culturally appropriate donation models and state-of-the-art clinical capabilities.

Globally, an estimated 2.2 billion people are impacted by blindness and visual impairment. Ninety percent of vision-impaired people live in low- and middle- income countries. Approximately one billion of these individuals are coping with blindness or visual impairment that can be characterized as preventable or not sufficiently addressed. Vision loss results in substantial economic impact worldwide due to the inability of people who are vision impaired to contribute to their fullest in their communities. Eversight envisions a world without blindness a world where all people in every community can lead independent, productive lives through the gift of sight. While providing for immediate global cornea transplant needs with U.S. donor tissue, Eversight continues to address the global burden by empowering international communities to take meaningful, sustainable steps every day to make vision a reality for all.
